

ALL-AMERICAN SERIES

100% Made in the U.S.A.

We are proud to introduce a line of flag kits that are **Made in the U.S.A.** The All-American Series was created to deliver superior flagpoles to the public using the quality, craftsmanship and expertise of American manufacturing. Each step in the process was carefully reviewed to ensure a superior quality product.

- Steel poles are made with a wall thickness that guarantees **durability**: 18 gauge for the In-Ground Pole Kits and 28 gauge for the 2-Piece Pole Sets
- All poles are **powder coated tough**: a dry electrostatically charged paint that forms an extremely tough and durable coating that resists cracking, peeling, marring and corrosion
- The ball, aluminum truck, and cleat are **vacuum metalized**: this process gives a superior high gloss, long lasting color retention and the durability to withstand an outdoor environment
- The 3-inch ball topper is made of **solid hardwood**: vastly superior to the traditional balls normally used in other flagpole sets
- The 2-position brackets used in the 2-piece pole sets are made from **recycled high-density polyethylene (HDPE)**: tested 25% stronger than nylon and abs brackets commonly used in the market

| ITEM # | DESCRIPTION | ACCESSORIES | EACH |
|-----------------|--|--|---|
| AA-18-BLACK-NF | 3" Vacuum metalized gun metal ball top 5-Section Black Pole | 18-Gauge powder-coated steel pole 6" Vacuum metalized aluminum cleat 1/4" Solid braided polypropylene black halyard rope (2) Nylon snap hooks 18" PVC ground sleeve 2" Aluminum truck | \$184.00 |
